

PS Chemistry  
Chapter 22: Solutions

Name \_\_\_\_\_ Period \_\_\_\_\_

Directions: Write a contextual definition for each of the following vocabulary terms using pages 664-685. All terms are in the book (not necessarily in **bold**) except those designated with an asterisk\*. Identify the page # from the chapter that the term was found on (not the glossary from the back of the book).

<b>solution</b> page # _____
<b>solute</b> page # _____
<b>solvent</b> page # _____
<b>polar</b> page # _____
<b>solubility</b> page # _____
<b>concentrated</b> page # _____
<b>dilute</b> page # _____
<b>saturated solution</b> page # _____

<b>supersaturated solution</b> page # _____
<b>crystallize*</b>
<b>electrolyte</b> page # _____
<b>nonelectrolyte</b> page # _____
<b>ionization</b> page # _____
<b>dissociation</b> page # _____
<b>nonpolar</b> page # _____

<b>unsaturated solution</b> page # _____
