

Warm Up

Write the chemical formula for the following ionic compounds.

1. Aluminum sulfate =

5. Tin (IV) nitrate =

2. Nickel (II) sulfide =

6. Copper (II) oxide =

3. Mercury (II) nitride =

7. Mercury (II) phosphate =

4. Sodium oxide =

8. Magnesium hydroxide =

Warm Up

Write the chemical formula for the following ionic compounds.

1. Aluminum sulfate =

6. Sodium chloride =

2. Nickel (II) sulfide =

7. Tin (IV) nitrate =

3. Mercury (II) nitride =

8. Copper (II) oxide =

4. Sodium oxide =

9. Mercury (II) phosphate =

5. Potassium bromide =

10. Magnesium hydroxide =
