6	7 Semester Review Practices	8 Semester Review Practices	9 Semester Review Practices	10 Semester Test	11 Semester Test	12

See Unit 7 Due Dates Sheet for more detail regarding additional requirements and due dates.

Physics 1A

Goals:

- Use mathematics and computational thinking to determine the efficiency of a variety of simple machines.
- Carry out investigations to determine efficiency of an inclined plane and a pulley system.
- Design a machine with five or more simple machines to complete a task.
